Ms. Palmer/Mr. Welborn:

I have just received the attached urgent emails from the father and sister of TTCC inmate Wayne Potee (TDOC #00990828), one of my longtime clients. He is **a great person who is in prison because of an addiction**. I would appreciate it if you would ensure that he is kept safe and is not murdered.

Mr. Coatney: I know I contacted you about this particular inmate and his transfer recently. I also know that given the circumstances of his addiction, relapse, drug-related write-ups, and rehab, there was nothing to be done. Now that there's a specific threat to his safety, though, I am obviously even more concerned for his well-being than I was before.

I appreciate whatever help you can offer here and would be personally grateful if you all could look into this one to make sure nothing happens to him.

Best,

-Daniel
